

HAMPTON VA

Safe & Clean Update

July 8, 2015

Background

- In the Summer of 2013, the city experienced a spike in the homicide rate
 - Growth in gun violence
 - Problems concentrated in certain areas
- 

Background

- City Council adopted ordinances, policies to reduce crime and blight (“broken window theory”)
 - Community meeting at Y.H. Thomas aired community concerns about underlying causes, neighborhood and community needs
- 

Background

- “Safe & Clean” adopted as the city government’s effort to have departments work together to solve problems in defined areas.
- 
- A decorative wavy line in a light blue color, spanning the width of the slide near the bottom.

Safe & Clean

Multi-departmental city effort
crossing traditional lines

Who works on Safe & Clean initiatives?

- City Manager's Office
- Police
- Adult and Juvenile Probation & Parole
- Fire
- Community Development – Property maintenance
- Community Development – Neighborhoods
- Public Works
- Hampton Redevelopment & Housing Authority
- Human Services
- Citizens Unity Commission
- IT
- Marketing
- 311 customer service
- City Attorney's Office
- Parks & Recreation
- Budget
- Emergency Management

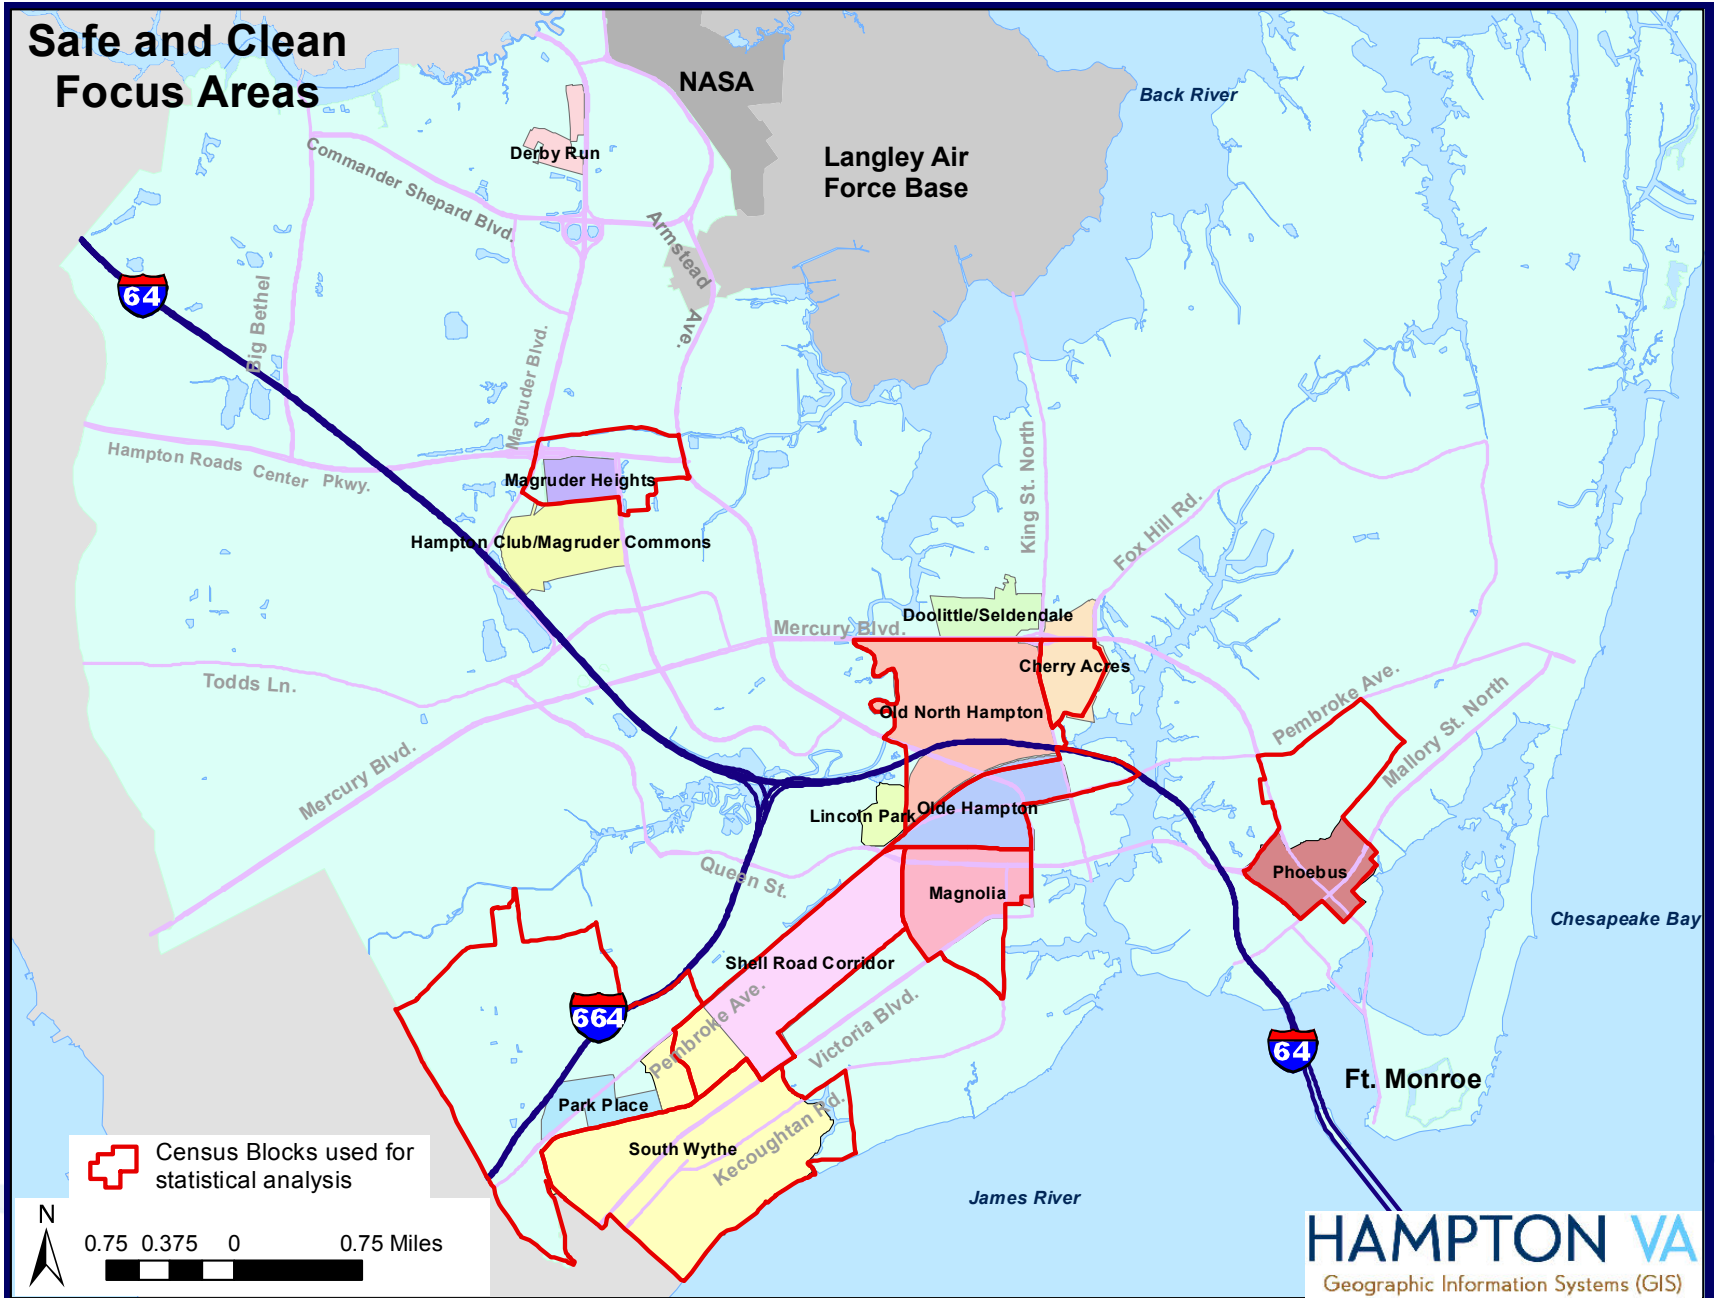

Goals of Safe & Clean

- Decrease incidences of violent crimes and serious property crimes
 - Reduce blight
 - Ensure housing is kept to standards of safety
- 

Strategies of Safe & Clean

- Implement new tools for enforcement
- Ensure that all departments are working together to target enforcement
- Establish relationships with neighborhoods to build trust and increase communication with police and other city officials
- Offer city programs, tools for neighborhood improvements

Safe and Clean Focus Areas

New Enforcement Tools

Property Management

Phil Russell

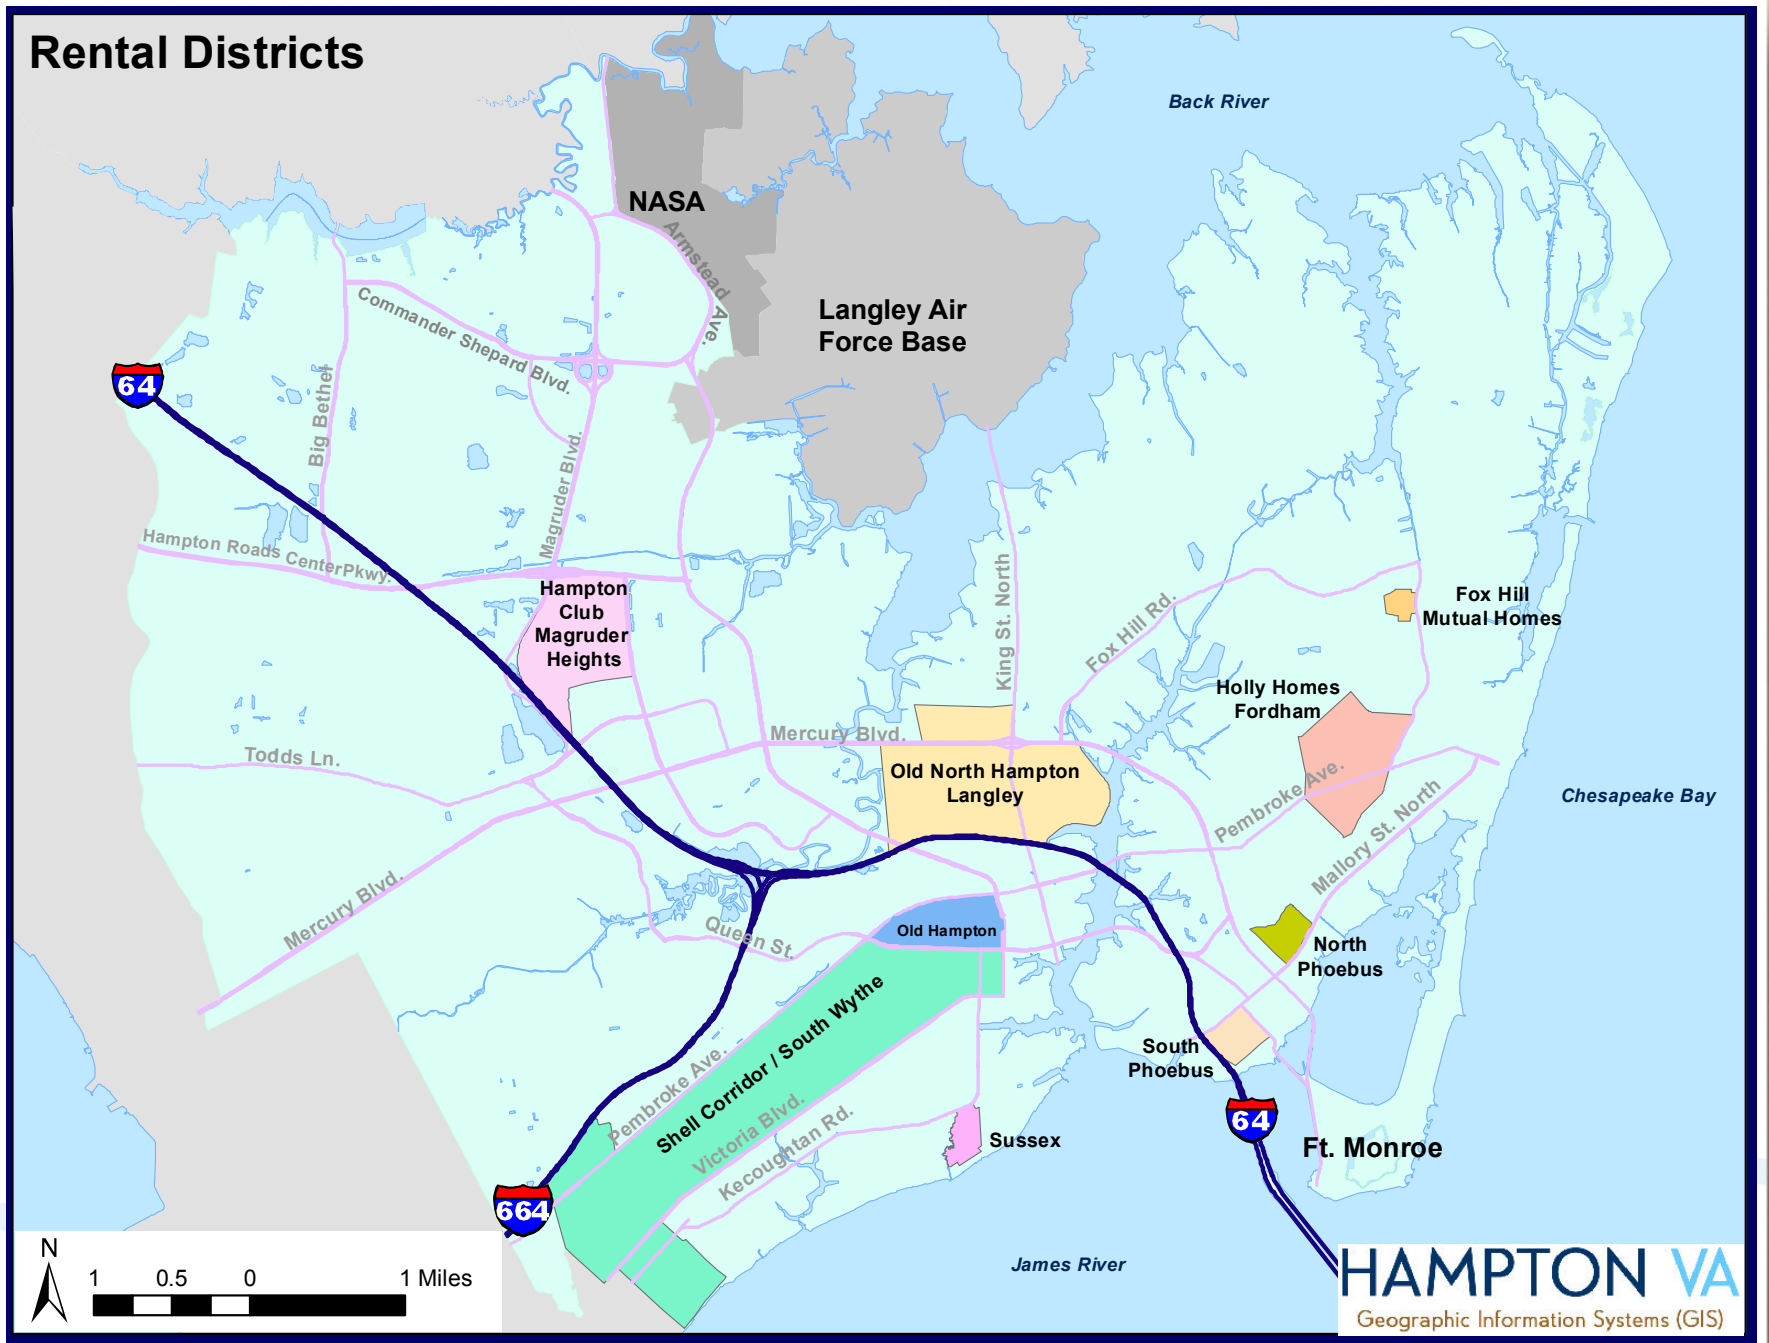

Community Development

Rental Inspections: Goals

- To ensure dwellings meet safe, decent and sanitary living conditions
 - Districts defined per state code guidelines
- 
- A decorative light blue wavy line spanning the width of the slide, located at the bottom.

Rental Districts

Rental Inspections: Results

- 8,245 property owners sent letters
 - 1,287 properties identified as rental
 - 1,354 violations found
- 
- A decorative wavy line in a light blue color, spanning the width of the slide near the bottom.

Rental Inspections: Results

Rental Inspection: Challenges

- Identifying unregistered rental properties
 - Compliance with inspections
 - Gaining access for re-inspections (once improvements have been made, tenants have less incentive to allow inspectors in)
 - Time-consuming process
- 

Hotel Ordinance: Goals

- Eliminate use of hotels without sufficient facilities as long-term housing
 - Ensure that minors staying in hotels are identified and given access to education
 - Find safe and sanitary housing alternatives for those in need
- 
- A decorative wavy line in a light blue color, spanning the width of the slide and positioned near the bottom.

Hotel Ordinance: Results

- Every motel received permit the first year
- 5 motels approved for extended stays
- 100% of long-term residents in other motels screened and assessed
- 94 people placed into more suitable long-term housing
- Working to streamline program to simplify for business owners
- Evaluating recent court rulings

Curfew Hours

Police Chief Terry Sult

Curfews for Minors: Goals

- To protect young people, who are more vulnerable to crime and peer pressure than adults at night, and who lack experience, perspective and judgment when it comes to recognizing and avoiding poor choices such as drugs, alcohol and crime.
- 

Curfews for Minors: Results

Summonses for curfew violations

Neighborhood Initiatives

Shellae Blackwell
Community Development

Neighborhood Goals

- Build positive relationships with neighborhood leaders and organizations in targeted areas
 - Build capacity (knowledge, skills & abilities) of neighborhood leaders & organizations
- 
- A decorative wavy line in a light blue color, spanning the width of the slide near the bottom.

Neighborhood Characteristics

- Several neighborhoods are in transition
 - Changing leadership
 - Limited communications structure
 - Few social interactions
 - No schools in 4 neighborhoods
-
- + Desire to work with police and city
 - + Wanted to learn new skills and engage
 - + Wanted focus on children and families

Relationship Building

- Internally: Established new relationships and/or re-connected to existing relationships with city departments
- Externally: Relationships were established with 6 of 9 targeted neighborhoods, faith groups, non-profits
- Utilized Housing Blitz to gather volunteers to improve homes/yards

Housing Blitz

- Existing program aligned with Safe and Clean areas
- 8,715 volunteer hours so far
- Assisted 132 households (259 people)

Capacity Building

- Neighborhood leaders
 - Coached with formal & informal leaders in six areas
- Neighborhood organizations
 - Established communication structures in three neighborhoods
 - Trained two neighborhood watch organizations
 - Registered three neighborhoods

In progress

- 34 staff and citizens trained as facilitators, recorders and listeners for the upcoming listening/learning tours
- 16 young people to be trained as facilitators & recorders
- Working to initiate a “small events application process” to minimize existing barriers to neighborhood-based opportunities for social interaction

Next Steps

- Conduct listening/learning tours
- Implement Hampton 201 skills training
- Build communication structures
- Build capacity to plan, implement and fund projects for social interaction as crime prevention
- Achieve registered status for more neighborhoods
- Design board training for existing non-profits and boards to enter into city partnerships

Next Steps

- Evidence-based and data-driven
 - Refining data collection
 - Overlaying information
 - Effectively, efficiently utilizing resources
 - Constantly examining ways to improve service
- 

Next Steps

- Analyze data to move areas in and out
 - What other areas are potentially at-risk?
 - What neighborhoods no longer need focus?
- Analyze data to measure underlying causes and suggest programs tailored to specific needs
- Use existing neighborhood resources, build resources where little exist
